# CTE Summer Camps

## Stay Calm and Sew On

Sewing Campers will create a summer beach tote to take home and enjoy. Starting with layout and patterns, students will learn how to operate a sewing machine, basic hand-sewing skills, and how to safely use an iron. Screen reader support enabled.

## "Girls at the Wheel" Automotive

A camp that is designated for young women who strive for self reliance and want to learn basic auto maintenance. This is an excellent introductory camp to empower young women with the confidence and knowledge for a non-traditional career.

*Students are required to wear non slip sturdy shoes and long pants.*

## "Summer Styling" Cosmetology

Come have some fun by discovering your own personal style this summer. Campers will learn what it takes to be a stylist and the proper way to manicure the hands, and proper make-up application. Campers also learn hair braiding techniques and styling of long hair.

## "Bon Appetite!!" Culinary & Baking

This camp will help you learn kitchen basics to gain more confidence in the kitchen! Learn basic knife handling skills, cooking and baking techniques. Campers will learn to make their own pizza dough and sauce from scratch and learn to use a commercial oven.

## Code into Computer Programming

Looking to create the next Instagram, Google, or YouTube? Do you know what a Raspberry Pi is? In this camp you will learn how to creating music with code, building and programming simple electronics, and modding Minecraft with Python. *Save your seat now, register today!*

## Girl Powered Robotics Camp

This ALL GIRLS camp will provide students the ability to learn, build, and program a basic drivable robot. At the end of the camp, we will have a mini competition with the robots.

## U-Build Summer Woodworking

Ever wondered what it takes to build a beautiful adirondack chair? Ever wanted one for your backyard? Well, here is your opportunity to build an adirondack chair that you will get to take home.

## Best Babysitter Ever!

You've got a summer job babysitting, now what? Work to create a bag of tricks that will help you to be the best babysitter ever. Camp will focus on creating constructive and fun activities that can be used while supervising younger children.

## VEX Robotics Camp

This robotics camp will provide students the ability to learn, build, and program a basic drivable robot. At the end of the camp. We will have a mini competition with the robots.

## The Girl Behind the Camera

Did you know only 6% of the top grossing Hollywood films each year have women in roles of director, writer, cinematographer, or producer. It's time we change that! I invite creative young women that want to learn about writing, shooting, editing, capturing sound, creating special effects and graphics for film and TV.

For more information, give us a call!
